

New products – High End 2011

We hope to welcome you at the High End show in Munich. At this year's show, we will present a real fireworks display of innovative new products:

**New Rondo Line – 101, 102, 103 and 108**

This year, all Rondo components are going to be redesigned regarding technical innovation as well as their appearance. In response to the many requests for an adjustment of the Rondo Line's looks towards the design of the components from other Burmester product lines. This is why we have decided to give up the circular display. The first unit that will be completed is the new Rondo CD Player. The integrated amp, tuner and power conditioner will follow shortly.

**Please note:** The Rondo Line 052 CD Player (circular display) is already sold out. From now on, only the new version will be delivered.

**Compact Loudspeaker B10**

The youngest and smallest offspring from the Burmester loudspeaker family is our new compact speaker B10. It was originally conceived as a near-field-monitor for studio recordings. Finally, the concept was transferred to a compact bookshelf speaker with astonishing sound qualities, requiring a minimum of space.

**Bluetooth Module for Burmester CD Players 069, 089, 061**

For the Reference Line, Top Line and Classic Line CD players from our current portfolio, a Bluetooth module has been developed which enables streaming from devices like iPhone, iPod or Blackberry. Back fitting of already delivered units is possible due to the MMI-slot. A **Stand-Alone** version of the Bluetooth module is planned as a further development.

**Music Server 111**

The new Burmester Music Server transmits the aspiration level of the Berlin High End manufacturer to a new product category. The multitude of functions, the coherent concept for the operation are guarantee for light-hearted listening pleasure. The clear design lines are a statement by themselves.

**New Product Line PURE**

Burmester PURE is a completely new product line within our portfolio. It is characterized by a new, innovative design, concentrating on the essentials. The first unit of the PURE Line is an analog preamp. The innovative design character runs like a thread through the whole product line. The analog preamp will be supplemented by further high end components during the following months.

**InWall Loudspeaker B11 and B21**

We are also going to present our new InWall loudspeakers. In terms of sound characteristics, our new InWall speakers are on a par with our conventional speakers. There will be a 2-way and a 3-way version, both very flexible in their final dimensions.
